

ArtsCorpsDetroit

Project Proposals

Community groups, organizations, and businesses located in Detroit can submit proposals for arts-based projects that will enhance and enrich their communities and promote the personal growth of their members or residents. Project proposals selected for implementation are announced in January, April, and September, and are based upon ArtsCorpsDetroit's (ACD) budget and resources. Each ACD project is led by a WSU faculty or staff member, a WSU student familiar with the specific area being explored, or by a local artist who is experienced in working with the community. Each project is photo and/or video documented.
